PI FINE ART 3D DESIGN INNOVATIONS

Welcome to our latest 3D design innovations lookbook! Dive into our redefined vision of innovative 3D concepts that marry tactile materials with artfully composed forms.

We are able to creatively customize all concepts to fit a range of budgets without compromising artistic flair and forward-thinking approach. Our team of designers work to ensure all construction is detailed and ready for the production of one or multiple original works.

Curated, inspired, and statement-making forms in the sophisticated settings found here can be made a reality for your next project. We are capable of full customization to meet your particular design ideas and inspirations.

BOTANICAL SERIES

Bring the rhythm of nature's patterns to your walls with our botanical-themed pieces. By combining several separate frames, a dimensional flow is created, making for a sense of movement that brings energy to your interior.
