

# PI FINE ART

DESIGNED PROTECTIVE ACCESSORIES & FIXTURES

# THE IDEA

A global pandemic has taught us how to adjust to and navigate our new environment to be healthier, safer, and more considerate of those around us. Function and design are key to making our new spaces feel more comfortable and inclusive. This collection incorporates specific pandemic-focused designs that will help us to achieve this. Our products deliver a customizable approach that takes into consideration your space, design philosophy, and aesthetic. PI Fine Art combines creative appeal along with helpful moveable screens and informative signage for promoting safety. Contact us today to see how we can help at [info@pifineart.com](mailto:info@pifineart.com).

**PI FINE ART**  
PROTECTIVE ACCESSORIES & FIXTURES

With over 40 years of experience, PI Fine Art understands function, form, and aesthetic. We work with clients around the globe to elevate their design philosophies by developing one of a kind artistic solutions that enhance the experience of guests, staff, and visitors.

PI has worked to develop a series of protective accessories and fixtures that focus on the well-being, health, and safety of ourselves and those around us.

The following presentation outlines how PI works with your design objectives to develop, customize, and ultimately create solutions for your space. Within the presentation, we illustrate through two case studies how our products are created to meet your particular needs. Presenting screens, informative signage, and unique graphics that best express your message, without comprising design and artistic flair.

PI is committed to innovation and telling a story through our products. Contact us to find out how we can customize a solution for you today!

**PI FINE ART**

Our work connects people. Our goal is to create environments with an awareness and consideration of health and well-being. We pride ourselves on looking after our staff and clients while keeping in mind safety, wellness, and integrity.

Sustainability at City Projects is built upon the premise that positive innovative results are possible when we effectively manage our environmental and social affairs. We are committed to sustainability leadership in our operations and project work.

COLOR PALETTE

# DESIGN BOARD INSPIRATION

# SCREENS LOUNGE AREA

**Product:** Screens to protect clients in corporate spaces such as lounge areas, waiting areas, and lobbies.

**Additional Usage:** Screens have cross-functional uses for public space, food & beverage, office, as well as fitness.

**Materials:** Scratch & Abrasion Resistant Acrylic.

S0552-20\*, N0016-20K.v2

# SCREENS RECEPTION

**Product:** Reception areas need a screen in place to protect clients while at the counter, as well as in the waiting areas.

**Additional Usage:** Screens have cross-functional uses for public space, food & beverage, office, as well as fitness.

**Materials:** Scratch & Abrasion Resistant Acrylic.

N0017-20

## 2D SIGNAGE ELEVATOR

**Product:** Elevators are often not large enough to provide 2 metres of space between persons, but people are used to crowding them to save time. This sign communicates only 1 person is allowed per ride, ensuring order and safety.

**Additional Usage:** Could be customized for guests and hotel staff to articulate rules regarding social distancing and cleanliness. Examples include door handle messages, house-keeping instructions, and printing graphics on a mirror for hand-washing.

**Materials:** Scratch & Abrasion Resistant Acrylic, Mirrored Acrylic, Aluminum. Themed templates that can be customized to suit various interior design styles.

**N0033-20.v2**

# SCREENS FITNESS AREA

**Product:** It can be difficult to maintain social distancing rules, especially inside fitness centres. These workout pods have privacy screens that are inspirational, reduce the risk of infection, and allow guests to feel that they have their own space to re-connect with their minds and bodies.

**Additional Usage:** Customizable options for fitness areas in hotels, gyms, and on-site workout centers in corporate offices.

**Materials:** Scratch & Abrasion Resistant Acrylic, Washable Multiwall. Themed templates that can be customized to suit various interior design styles.

## 2D SIGNAGE WASHROOM

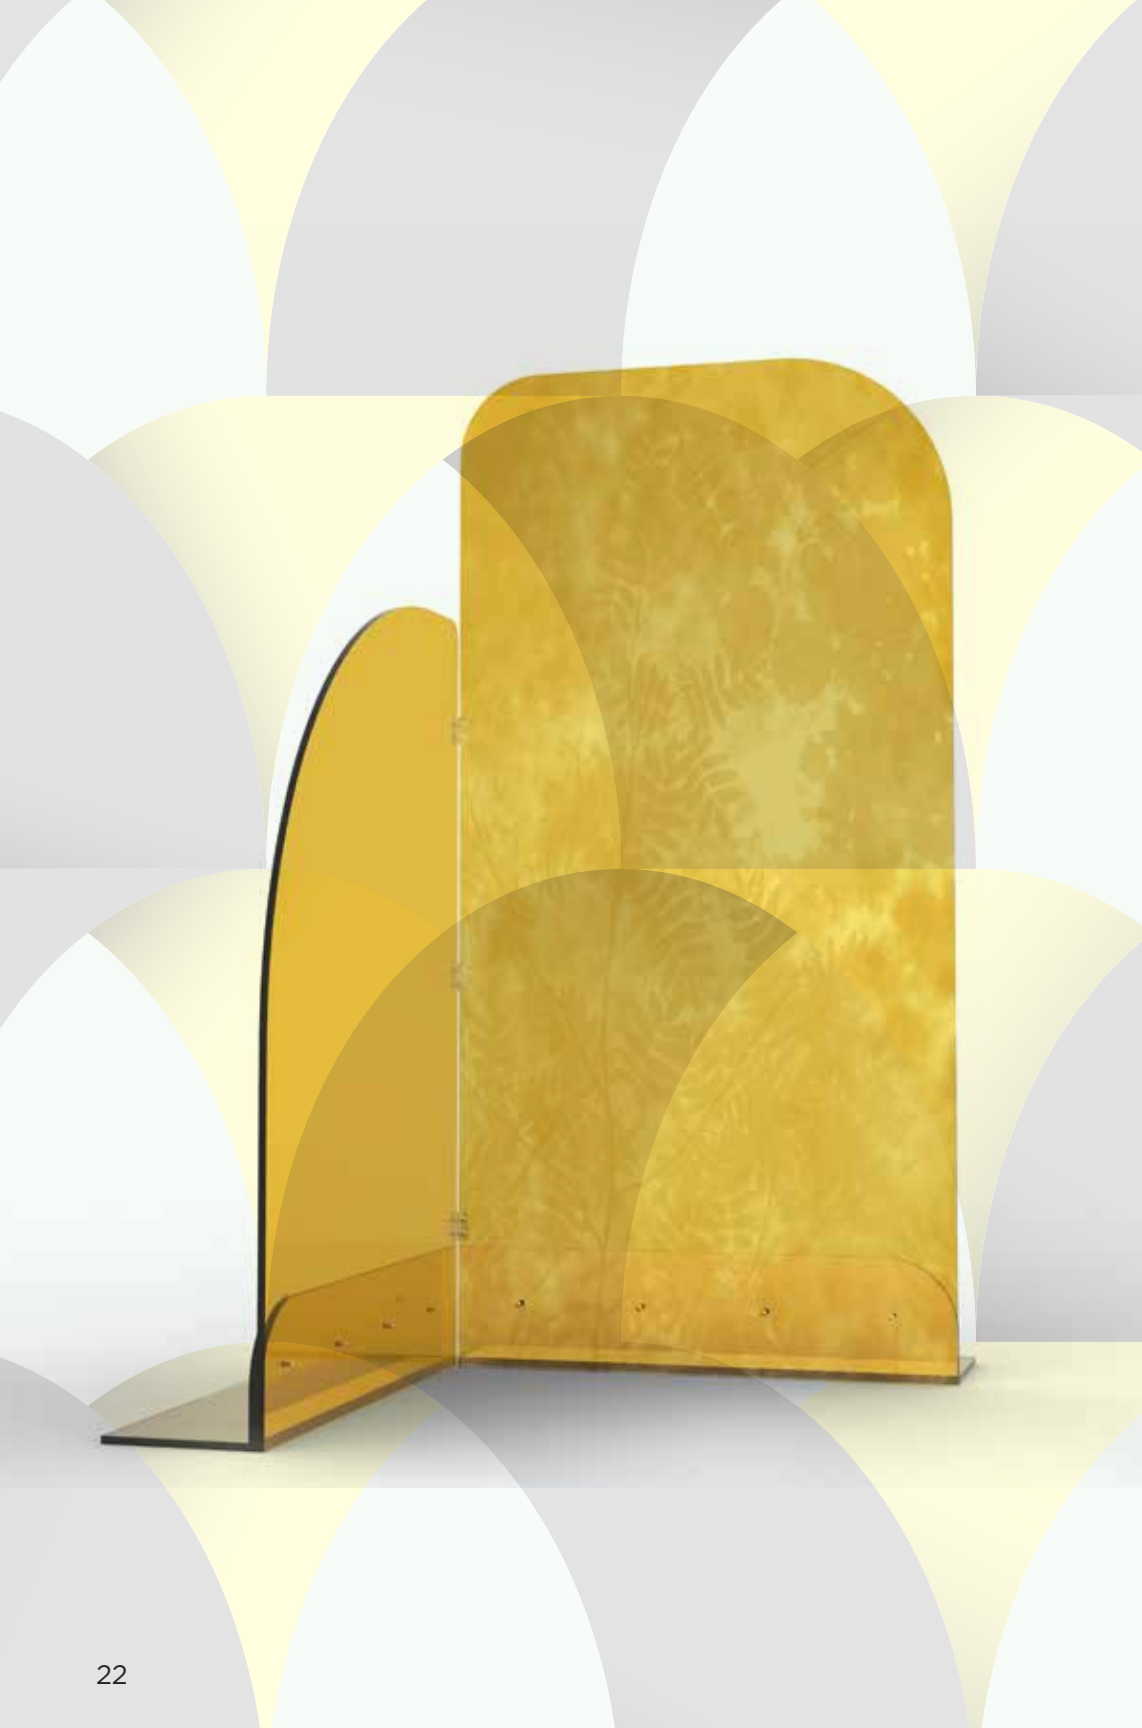

**Product:** Hand washing signs are essential in preventing the spread of bacteria. Proper signage will be necessary for every bathroom. This product is easy to disinfect and has a clean, corporate look.

**Additional Usage:** Could be customized for guests and hotel staff to articulate rules regarding social distancing and cleanliness. Examples include door handle messages, house-keeping instructions, and printing graphics on a mirror for hand-washing.

**Materials:** Scratch & Abrasion Resistant Acrylic, Mirrored Acrylic, Aluminum. Themed templates that can be customized to suit various interior design styles.

**S0553-20**

# THE BUTTERFLY

The Butterfly is a moveable, protective screen that features a stabilizing base made from scratch-resistant acrylic. The Butterfly can open up to 135 degrees and is customizable in colour, pattern, and image placement. These screens are excellent additions to food and beverage areas, and to public spaces including reception, lounges, waiting areas, and shared work spaces.

## BOUTIQUE CASE STUDY

At Serenita Hotel, the best of Dallas is just steps away. Serenita Hotel welcomes guests in 83 loft-style rooms and suites. We believe our guests deserve a place to feel safe, welcomed, inspired, and at home in our city.

We pride ourselves on looking after our staff and guests while keeping in mind safety, wellness, and sustainability. Major sustainability features of our hotel include on-site renewable energy systems, collection of rainwater for irrigation, careful selection of building materials that create a superior indoor environment and experience for our guests.

# SCREENS HOTEL LOBBY

**Product:** These screens provide functional safety by blocking particles, but also can serve as 3D artworks that are an extension of the décor and designers vision.

**Additional Usage:** Screens have cross-functional uses for public space, food & beverage, office, as well as fitness.

**Materials:** Scratch & Abrasion Resistant Acrylic.

# 3D SIGNAGE ELEVATOR

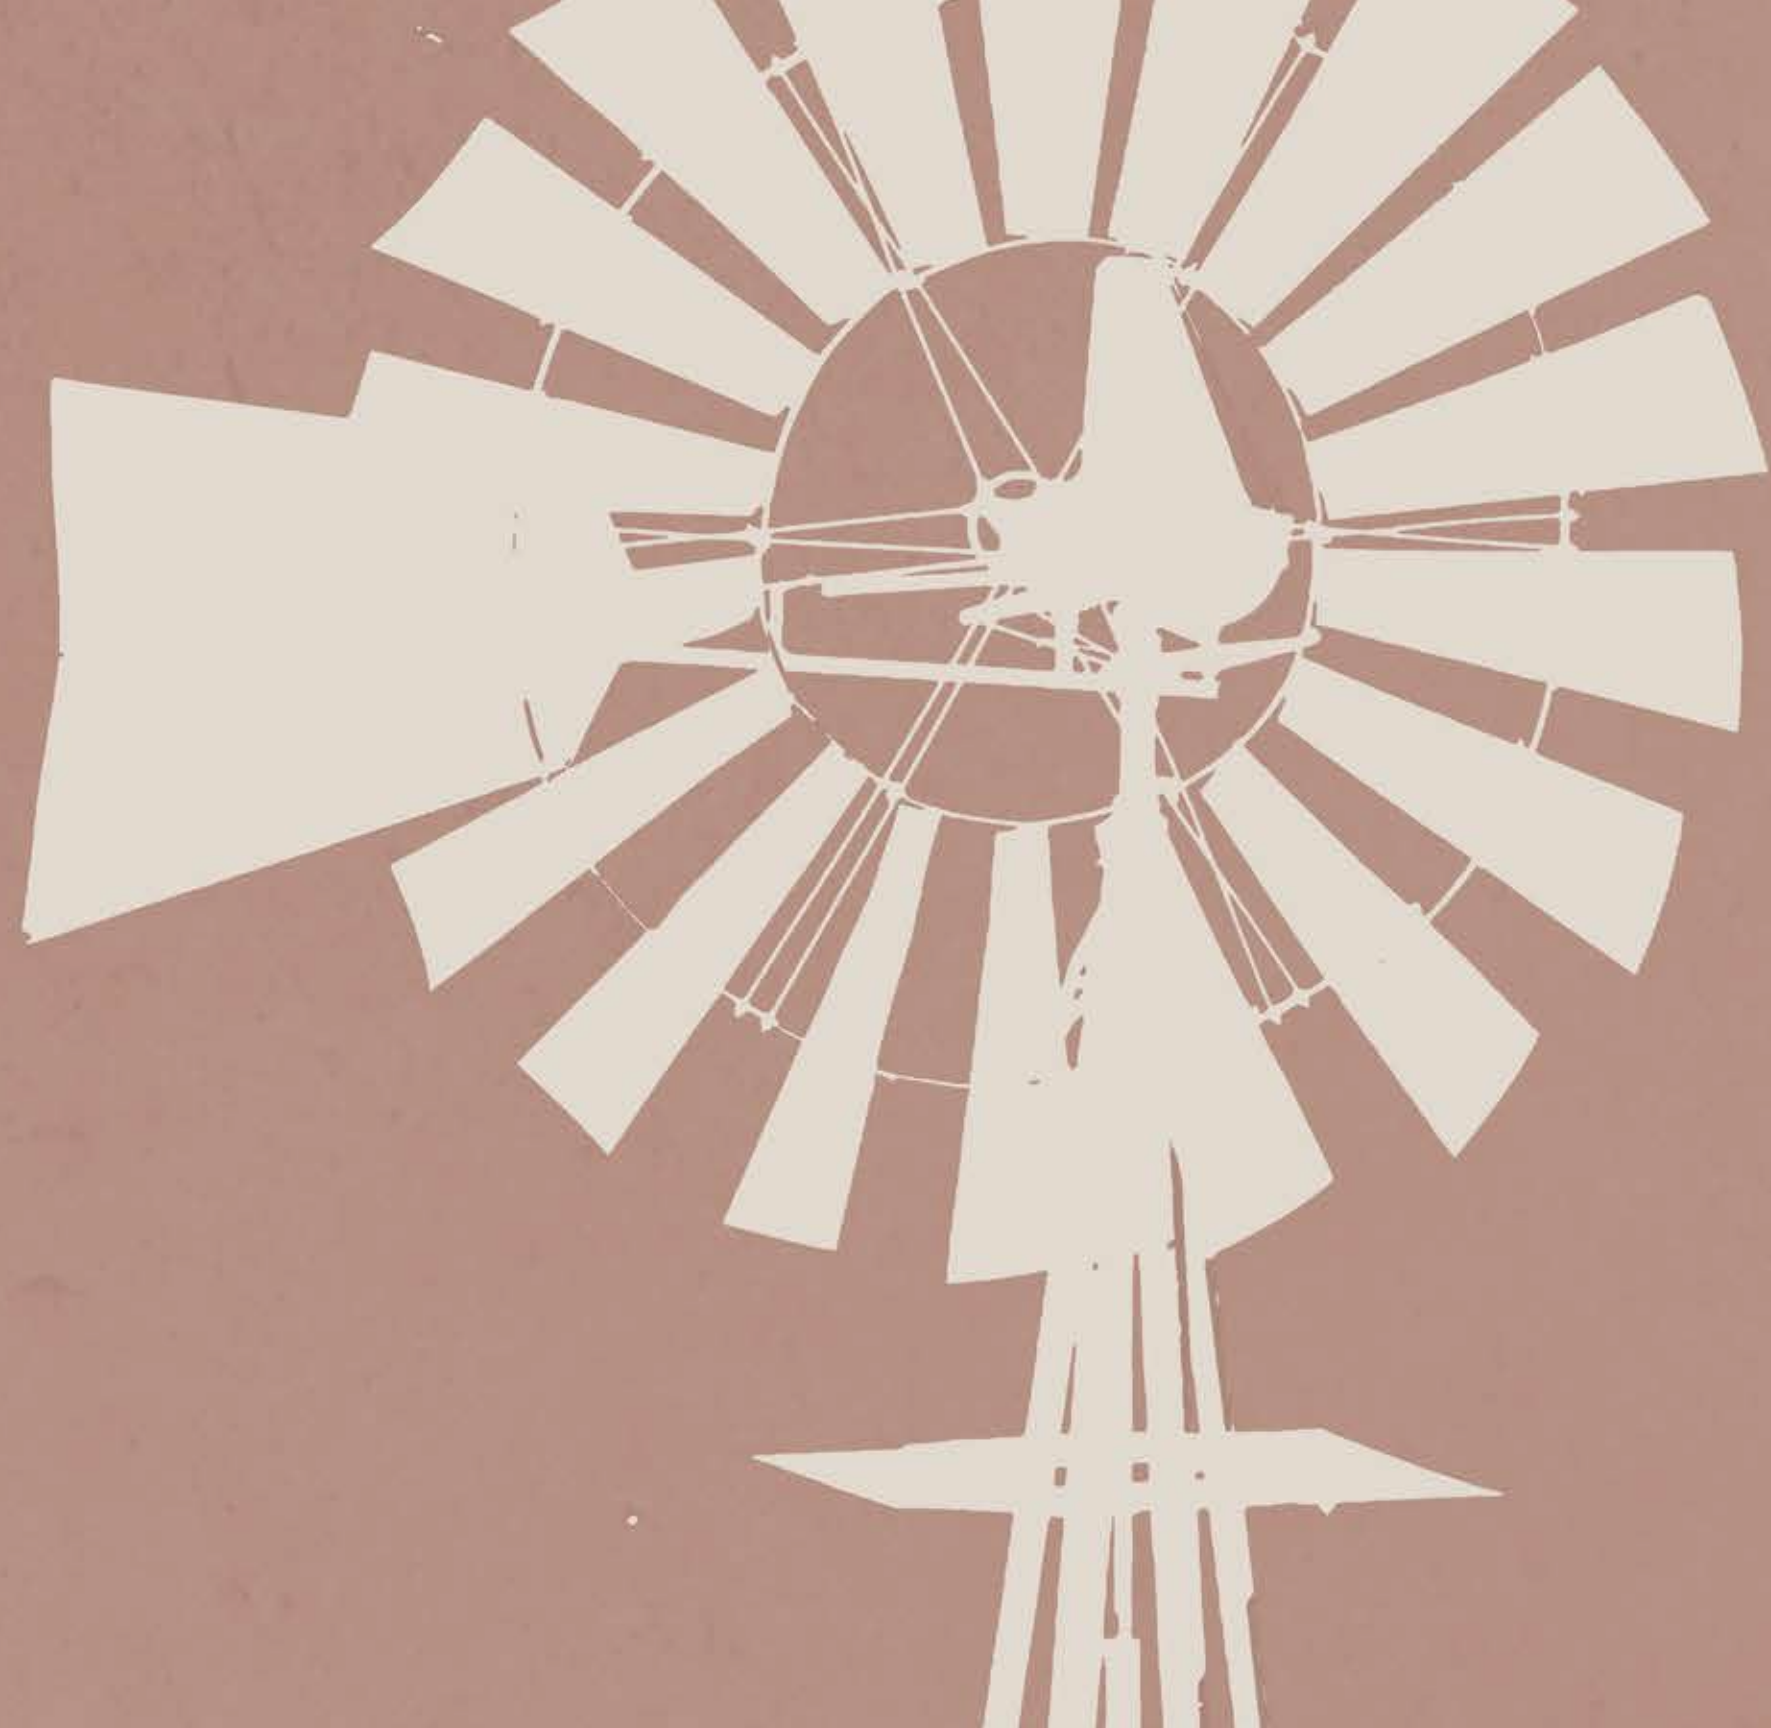

**Product:** Elevators are often not large enough to provide 2 metres of space between persons, but people are used to crowding them to save time. This sign communicates only 1 person is allowed per ride, ensuring order and safety.

**Additional Usage:** Could be customized for guests and hotel staff to articulate rules regarding social distancing and cleanliness. Examples include door handle messages, house-keeping instructions, and printing graphics on a mirror for hand-washing.

**Materials:** Scratch & Abrasion Resistant Acrylic, Mirrored Acrylic, Aluminum. Themed templates that can be customized to suit various interior design styles.

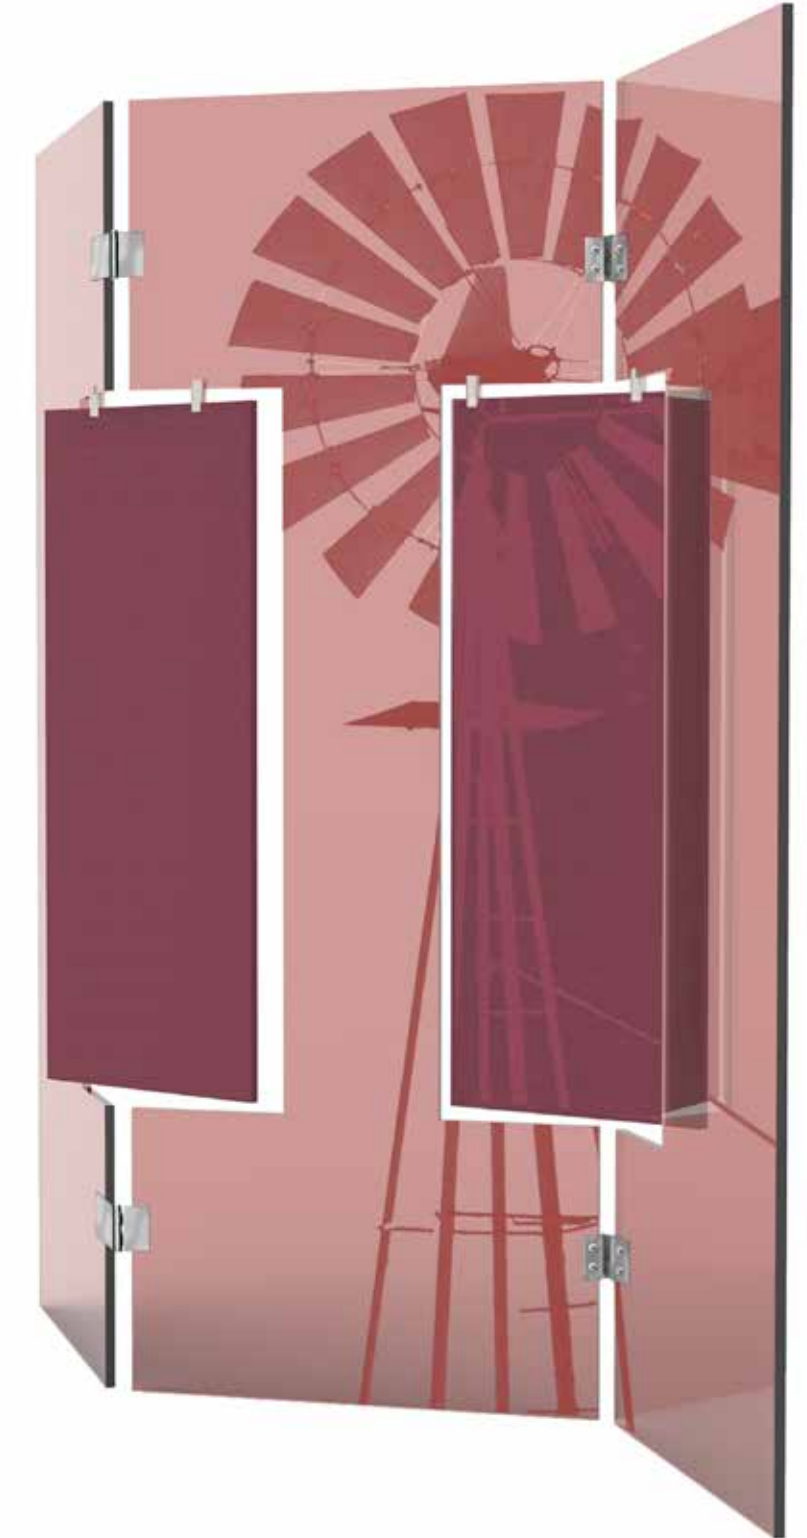

# CHINOOK

The Chinook is a vertical screen that is moveable from the outside and from within. Three panels hinged together with adjustable panel inserts creates interesting sight lines. This screen can be considered for use in food and beverage areas, as well as public spaces including reception, lounges, waiting areas, and shared work spaces.

**N0028-20K**

# OASIS

Oasis is a layered circular scratch-resistant acrylic piece that illustrates social distancing protocols in a beautiful, unique design. This 3D signage can be considered for use in boutique interiors to complement the company's aesthetic.

**S0510-20K.v3**

# PHOENIX

Phoenix is a texturally rich piece with layered elements that convey the mood and voice of the client's brand while delivering an important message.

Hand washing signs are essential in preventing the spread of bacteria. Proper signage will not only provide a friendly reminder but also elevate every bathroom. This product has a decorative look and is easy to clean!

# WE'VE GOT YOU COVERED

## ANTI-MICROBIAL SCREENS & SIGNAGE

All of our screens and signage are covered in an **anti-microbial copper film** for Covid-19 mitigation.

Our products are safe, practical, and customizable. Within 30 minutes of contact, the copper coating completely destroys the body structure and virus genome of Covid-19.

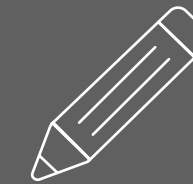

**N0016-20K.v2**

# FEATURES

## ANTI-MICROBIAL

Research shows that 'anti-microbial copper' rapidly deactivates the coronavirus within a couple of minutes of contact with the film.

## CUSTOMIZABLE

Products are available pre-printed with beautiful artwork or a custom design. Get that bespoke look for your property, developed and curated by PI Fine Art.

## HIGH TOUCH AREAS

Our products are meant for high touch areas, such as:  
Doorways | Restrooms | Computer Desks  
Retail Cash Pad | Reception | Elevators

## WASHABLE

All of our screens and 2D signage are easy to clean with soap and water while maintaining the effectiveness of the anti-microbial copper coating.
