3D TECHNIQUES

Print on Wood
3D LAYERING TECHNIQUE

Form Follows

The natural beauty of wood gives the artwork a rustic feeling, while the 3D layering technique adds an interesting dimensional element to the piece.

Image Code: EZ964-A · Custom sizes and colors available.

Images used:

Strata

3D FRAMING TECHNIQUE

HN009-A

HO006-A

Printed matboards with shapes cut out like circles, arches and squares, reveal different parts of the layers beneath. The image layers work together to create an interesting, dimensional artwork. (1) Request the Strata Technique (2) Select the images to use (3) Select the shape of the cut-outs (ie: circle / arch / square) (4) Select the number of layers (a maximum of 4 layers) (5) Select the shadowbox frame
Image Codes: HN009-A, HO006-A · Custom sizes and colors available.

Metal Dibond
3D LAYERING TECHNIQUE

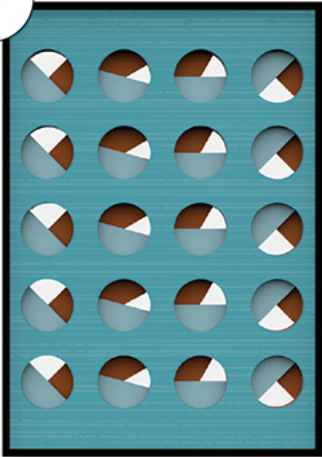

Little Green Portal

Get creative by layering multiple prints, using the Metal Dibond 3D technique. The Little Green Portal artwork offers a dynamic architectural look.

Image Code: N4001-2K • Custom sizes and colors available.

PI FINE ART

Making quality custom artwork for over 40 years

At PI FINE ART we design and manufacture custom artwork, mirrors and wallcovering. We offer expert art consulting and quality art manufacturing for every kind of interior project. We work with our in-house studio artists to create over 200 new images every month, in addition to customizing unique PIFA Art Packages for your projects. All of our artwork is domestically produced in-house, which allows us to offer competitive pricing, shorter lead times and high quality products.

Custom Design

PI FINE ART is known for its exceptional ability to customize within brand standards or can create unique collections specific to your boutique design needs. Finish off your property's design with beautiful artwork that has been curated and developed by PIFA's team of art consultants, project specialists and in-house artists. Please inquire today for more details so we can begin creating your custom PIFA Art Package.
