THE FUTURE NATURE COLLECTION

Modern society has become increasingly disconnected from nature, and due to global lock-downs people are gravitating back to off-the-grid living and natural outdoor settings more than ever. For human-kind to secure a “habitat” for future generations, it is essential that we tune ourselves “back into the nature” and re-gain greater awareness of our planet and what it needs to thrive, rather than just survive.

PIFA Hospitality’s NEW Future Nature Collection explores natural, powerful shapes, vibrant color pairings, complex textures and sustainability in art. All of the pieces in the series have been designed by our team of #PIFAstudio artists and each unique piece can be customized.
